

Rethink the Possibilities™

• Custom devices • Bare die for space constrained solutions • Customer-specific screening

Innovation

- Leading edge devices
- Custom packaging
- Application specific designs / MDMs

Services

- VMI (Bonding, consolidation, bar coding)
- Up-screening (Packaged devices & Bare Die)
 - Mil/Aero equivalents
 - MIL-PRF-38534 (H, K)
 - MIL-PRF-19500
- Super Industrial™
Custom device enhancements & Screening

Legacy

- Central continues to manufacture older technology devices still in demand
- Over 3,000 devices available
- Custom legacy device development possible

Bare Die

- Standard and unique packaging options
- Custom metallization
- Broad range of devices
- Multiple up-screening options

Discretes do Matter™
